42:19 Minutes

"There are going to be moments when you have to make a decision about how I'm going to stick it out with Father or I'm going to rely on what I think and what I know and my capabilities and all those things."

"It's God's fight, it's spiritual."

"There's the five senses, there's the world and then there's The Truth which is God and His Word, that's The Truth."

"So the question again is what do I trust, what am I trusting in; myself, my capabilities, my boss, the company, my job, people."

"God wants us to stand with Him, with Him, He's standing and He's just saying 'Stand right next to Me'. The Creator of the heavens and earth is saying stand next to Me. Where could there be a safer in the entire universe?"

"Put on all this armor and stand. God wants us to stand with Him and move only when He tells us to. If you don't give up you can't lose. Hang in there with Him. The adversary wants you to quit, don't."
