25:42 Minutes

"Moses, he didn't have as much as we have but he did the same things we can do."

"He said 'I am what I am which literally means 'I will be what I will be' I will be whatever you need Me to be. And in the full nature of God we cannot simply define it by a number of words. The full nature of God is symbolized in the seven redemptive names of God but God goes so far beyond that."

"If it looks too late to do something for God dismiss that thought, that's a lie."

"It is right to expect good things. That is the proper way to think."
